# the CRUISER

We have taken our nationally famous, top-of-the-line custom bat bags and brought them to a whole new level of functionality for competitive softball teams. When you have the best players and top-flight equipment, you will find that Sportwaves' new Cruiser™ Bat Bags are the best choice for your team and your image as a championship-class softball club.

Our award winning Rocket and Galaxy Bat Bags are now available with wheels!

These are the first custom bat bags with wheels designed in the traditional style — with bats in a compartment under the bag.

***S*IMPLE IDEA, GREAT RESULTS:** All Cruisers are available with a matching Catcher's model. This is the same bag, only with a 2" deeper bat compartment that provides ample room for all of the catcher's gear and still leaves plenty of room for bats.

## Cruiser Bat Bag Features:

**\*\*NEW:** Cruiser Wheel System

**\*\*NEW:** Foam Tunnel™ padded bat compartment carries 4 to 7 bats

# RENEGADE BALL PLAYER'S BACKPACK

**the RENEGADE**

**Renegade Backpack**

- Custom made in your team colors
- Custom team logos, names & numbers
- Many colors available

Dimensions:

Base : 13.5" wide x 11" deep

Base to Top: 13"

**FIRST BASE:** This is one roomy backpack. You can fit all of your gear into the main compartment.

**SECOND BASE:** The Renegade features a padded contoured shoulder strap system. You will find them amazingly comfortable as you walk all the way from the parking lot to the ball field.

**THIRD BASE:** Extra pockets are a must on every backpack, and the Renegade has an exterior pocket for almost anything! There is a clever iPod/CD pocket on the front of the bag. This pocket also has room for CD's. There are also two exterior pockets suitable for cell phones, wallets, power bars...

**STEALING HOME:** The overall effect of the bag is convenience, in a keep-it-all-together, nice package... You've got all your gear in a backpack, you can hang it on the fence, and your bats are right there, in a mesh sleeve pocket on each side. In front of those pockets are two bungee mesh pockets -- usually for water or sports drinks -- but they are big enough for your imagination, as well...
